Amendment 0001 - Continuation Sheet

(1) Responses to Submitted Questions:

1. The RFP allows for 120 days from submission of the bid to award, followed by the 15 calendar days for the bond and insurance to be submitted, and the specified durations for submittal review and scheduling work which will add at least an additional 30 calendar days. The RFP and bid form also state that there is work to be completed by October 15, 2015 and November 25, 2015. Will the notice of award occur before August 15, 2015 or will the completion date for the work be May 31, 2016 as per the remainder of the work items?

A: The completion dates for each CLIN are summarized on the following page. See also revised spec section 01 14 00.

2. Section 01 14 00 paragraph 1.2.e calls for substantial completion of the Bldg A9 parking lot by September 30, 2015. Will the notice of award occur before August 1, 2015, or will the completion date for the work be correspondingly postponed to reflect a later than August 1, 2015 date of award?

A: The intent is to award the base bid before August 15, 2015. See revised spec section 01 14 00.

3. Section 02 82 16 for asbestos containing materials is provided in the specifications, and in paragraph 1.4.1 it is called out that there is demolition and removal of asbestos containing pipe and fittings, asbestos containing pipe insulation, and soils with asbestos containing materials. This is not noted on the plans or on the bid sheet. What are the quantities of asbestos removals to be assumed for this work, or is none to be assumed?

A: Refer to Spec section 02 82 16.00 20 paragraph 1.1 .

4. Section 01 30 00 paragraph 1.5 allows for the superintendent, if appropriately qualified, to also perform the roles of SSHO and QC Manager. Section 01 35 26 paragraph 1.6.1.1 and Section 01 45 00 paragraph 1.5.1.1 state that the QC Manager can perform the role of superintendent but cannot perform the role of SSHO. Can the roles of QC Manager, SSHO, and Superintendent be combined?

A: The roles of SSHO, QC manager and Superintendent can be performed by one person if qualified.

5. Is existing aggregate where called to be removed to be considered arsenic containing existing soils per the Naval Station Newport Soil Management Plan or is it to be considered not an existing soil, and so be treated as clean fill

A: Assume all soil material to be removed from the base as arsenic containing.
